

Pillow Case Pattern

Directions:

Cut two identical size pieces of fabric, that are each 29.5 inches long and 21 inches wide. This will create a 20×26 inch pillowcase when finished.

Create a seam for the outer edges of the pillowcase by folding over the fabric 3.5 inches (on the long end – where the opening will be). Then iron down the folded part and pin it, to keep it in place. Sew the bottom edge of that fabric to itself. This will create a faux cuff.

Repeat step 2 with the second piece of fabric.

Then put the right sides of the two fabric pieces together (the pillowcase will look inside out), line up the cuffs that you created in steps 2 and 3. *The cuff side is the opening side of the pillow.*

Pin the remaining three sides together with straight pins (be sure to keep the cuffed end open) and sew a straight line around the edges of the remaining three sides of the pillowcase.

Flip the pillowcase right side out and it's ready!
