- Smaller and fewer scars
- Decreased infection risk
- Lower rate of opioid use

Choose INTEGRIS Health

Robot-assisted options continue to revolutionize surgical procedures. Our specially-trained surgeons are experts in robotic techniques. Optimizing the latest advancements, tools and treatments, INTEGRIS Health offers the most robotic-assisted surgery options across the state of Oklahoma.

“ Robot-assisted surgeries allow surgeons to perform advanced procedures with relative ease. Complex cases can now be accomplished through much smaller incisions. Patients benefit greatly from improved outcomes – including significantly reduced pain, faster recovery, less bleeding and smaller scars. ”

INTEGRIS Health Robotic and Minimally Invasive Surgery
