

Cority ReadySet – Alternate Login Process

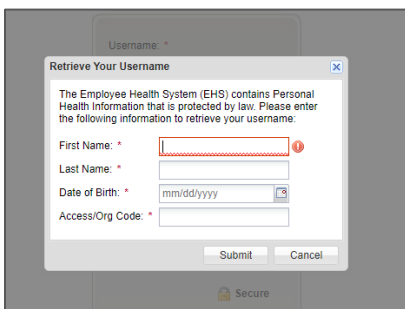

If a Caregiver is unable to use Single Sign On (SSO), please follow the instructions below to access ReadySet.

Try It Out

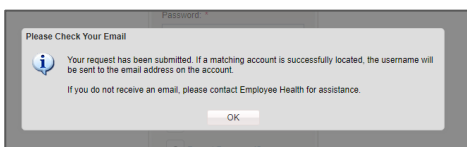

1. Access ReadySet using the provided URL: <https://integris.readysetsecure.com/rs/>.
2. From the login screen, select **Forgot Username**.

3. Fill out the form with your first and last name, your date of birth and enter 3669 for the access/org code. Click **Submit**.

4. The following message will appear, informing you that the username will be sent to the email address on file in ReadySet.

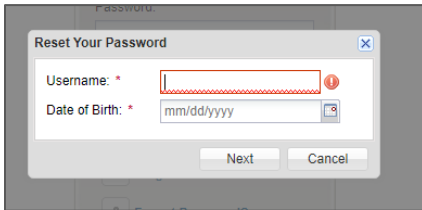

NOTE: There is a chance that ReadySet may have your personal email on file rather than your INTEGRIS Health email. Please check your personal email and INTEGRIS Health email.

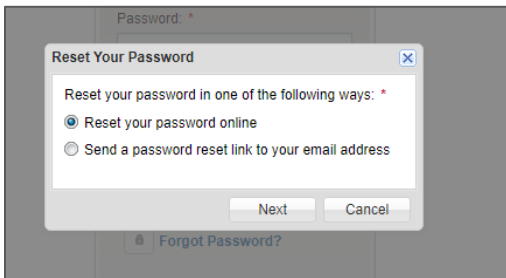

5. After receiving your username from the email, click **Forgot Password** on the ReadySet login screen to reset your password.

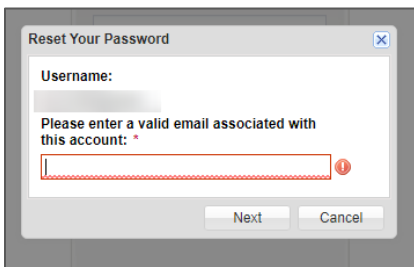

6. Enter the provided username and your date of birth and click **Next**.

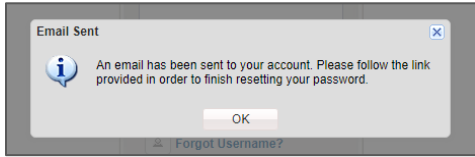

7. Choose the preferred method to reset your password, being online or a password reset link sent to your email address. In this instance, Send a Password Reset Link to your Email Address is chosen. Click **Next**.

8. Enter the email address associated with your ReadySet account and click **Next**.

9. The following message will appear, informing you to check your email and use the link to reset your password.

10. Click the provided link in the email to complete the password reset. The link will lead you to the following screen.

Fill out the form with the required information to reset your password.

11. Go back to the login screen and login with your new password.

More Information

It is recommended that once you have gained access to ReadySet, if a personal email is listed on your profile, change the email to your INTEGRIS Health email address under User Settings, Personal Information.
